QUICKBLADE IS UNIVERSAL

UNIVERSAL WIPER BLADE

DOMESTIC • IMPORT • EUROPEAN

WIPER BLADE FEATURES AND BENEFITS

The QUICKBLADE windshield wiper is frameless, without fixings and without joints in metal or plastic, which has the effect of preventing ice and snow from accumulating;

The blades are graphite treated to reduce friction noise;

Aerodynamic design helps reduce wind lift;

The ultra-flexible design allows the blades to conform better to the surface of the windshield and better adhere to it;

A tension spring that distributes pressure more evenly over the entire length of the blade to ensure excellent visibility.

QUICKBLADE is 4 seasons and has a performance of 24 months.

8 IN 1
